

# TESTntel Guidebook

Professional, Efficient, Intelligent

## ABOUT US

TESTntel boasts a workforce of over [60] professionals across Aotearoa, including Electricians, Thermographers, Registered Electrical Inspectors, and more than 50 Electrical Service Technicians.

With an extensive 18-year background in **Data Systems and Safety Compliance**, you can trust that your site will undergo meticulous inspection by our expert team with complete verification of all Test Data managed by our service team and accessible to you.

## OUR SERVICES

- AS/NZS3760:2022 Portable Electrical Testing
- AED & Medical Performance Verification
- Electrical Thermal Imaging Surveys
- Electrical Vehicle Supply Testing
- Periodic Verification Inspection
- NZS4503:2005 Hand-Operated Fire Equipment Testing
- First Aid Kit Planning & Maintenance
- Complete Management

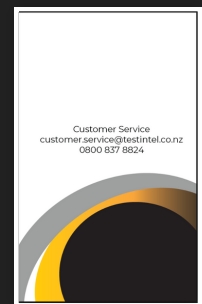

## WHERE WE SERVICE

## OUR TECHNICIANS

Full Uniform and Personal Photo Image Identification Cards are mandatory for all Technicians. These ID cards clearly indicate their authorised work authority level.

Here is an example of our **current ID card**:

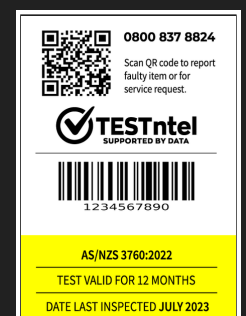

## QR CODE SYSTEM

TESTntel provides vinyl adhesive QR Codes for all tested items, enabling the addition of crucial asset information such as location, make/model and serial number.

Advantage of using QR Code:

- Asset management
- Create a searchable asset register
- Flexibility to edit your inventory
- Provides the ability to use barcode scanners for auditing
- Pictures of appliances stored in inventory
- Reduces theft, as organisations' assets are recorded.

Example of TESTntel QR Code:

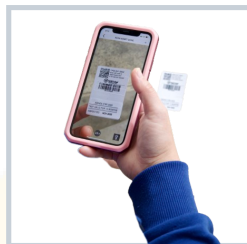

## HOW IT WORKS

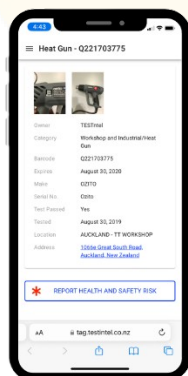

1) Upon completion of the electrical inspection and testing of each appliance, our technician will assign the data to the QR Code that has been attached to the item.

2) A photo of your appliance will be captured by our technician for system integration and linkage to the QR Code with the Electrical Test Result and other key data.

3) Voila! You now have complete control over your inventory.

1. Scan barcode

2. Check your appliance's details

## REPORT SYSTEM

Upon completion of the inspection, we can provide your reports in the following formats:

- PDF
- Excel
- Electronically

For clients managing multiple sites, feel free to request reports as needed. Additionally, you will receive exclusive access to your personalised **TESTNTEL PORTAL**.

### Example of TESTntel E-Report:
